

### **DOG WELFARE IN FOCUS AT DKK EVENTS**

We kindly remind you that all the dogs are the canine stars at this event. The Danish Kennel Club expect all exhibitors to handle the dogs with care and consideration, and with full attention to the welfare of both your own dog as well as other dogs, handlers, staff, and guests attending DKK events.

### **PLEASE KEEP THE VENUE CLEAN**

It is imperative that all exhibitors act as responsible dog owners and clean up after your dog – both for sanitary and contamination reasons.

There are established outdoor dog-toilet areas as well plenty of green exercise areas around the venue for this purpose. There are trash bins throughout the venue and “poop bags” are handed out each morning upon arrival to the venue. We have made it easy – all you must do, is pick up the poop! 😊

### **WATER ACCESS**

Water points will be accessible in the toilet areas of all venues. There are also water points outside the venue halls. Please note, that your dog must always have access to water, while being crated in a cage or in a pen-area.

### **WARM-UP AREAS**

We recognize that your dog is a canine athlete and therefore we aim to establish “warm-up rings/areas” around the venue for you and your dog to enjoy while getting ready to take part. Please note, that the warm-up rings are shared by all exhibitors, so be considerate when utilizing the area.

### **GROOM, CLEAN AND GO AREAS**

Groom, clean and go areas are not always provided, as it depends on the conditions at each venue. If they are provided, preparation of dogs should generally take place in such areas. In these areas power outlets, trash bins etc. are available, and you can – temporarily - set up a grooming table. These designated “groom, clean and go” areas are for temporary use only and must be shared by exhibitors.

Please remember: If you trim or groom your dog, you should bring an underlay (sheet, blanket, tarpaulin or the like) to place under the grooming table, so that you can easily pick up dog hair, etc. and put it in the bin. Remember to clean up the area before you leave.

### **GOOD WELFARE AND GOOD HANDLING OF DOGS**

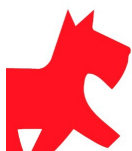

The Danish Kennel Club is committed to the health and welfare of all dogs exhibited at all events. We expect all exhibitors to handle the dogs with care and consideration, and with full attention to the welfare.

**Exhibitors are reminded to pay attention to and adhere to the following instruction while showing the dog:**

- The handler is obligated to show the dog in a way that is comfortable and safe for the dog, and where the dog's welfare and health is in focus (not disregarded). The dog must be shown on a leash that allows correct and natural movement.
- Dogs should be handled in a loose leash and running at free will during the judging of the dog. If the leash is tight, it is because the dog has chosen to pull in a forward motion.  
(It is not acceptable to handle a dog in a manner which causes its feet not to touch the ground when on the move or by pulling too tight on the lead).
- All collars/leashes must have a stop so that the dog cannot be choked.

Approved collars/leashes:

- Set collar – collars that cannot be tightened
- Limited slip collar – collars where a small part of the collar can be tightened

- “Retriever leash” – leash where a loop in the end forms a collar. Please note that there must be a “stop” or a “knot” on the leash inwards towards the dog, so that it is not possible to choke.
- Show leashes where the leash, including the collar, has been fixed in such a way that the leash cannot choke the dog.
- Dogs that need to be lifted to and from the table during judging, must be lifted in a way that supports the dog’s body in a comfortably way.  
(Picking up dogs, often terriers, by their necks and/or tails is not permitted).
- Exhibitors should note that any practices that constitute harsh handling are reported to the Show Committee under The Danish Kennel Club.  
Please remember: If an exhibitor does not follow the show management’s request to remove dogs from warm cars, the show management can impose one or more sanctions against the exhibitor in question:
  - exclude the exhibitor from the show area,
  - cancel the awarding of prizes for the dog(s) owned by the exhibitor in question,
  - report the exhibitor to the DKK disciplinary committee.

### **CAGES and GROOMING TABLES**

If cages, crates og pens are used for temporary lodging the dog, the following must be adhered to:

- The cages, crates or pens used must be spacious enough that a dog (or dogs) can comfortably sit, stand and lay down. (The use of cages with wire false floors, where the dog is not sitting on the base of the cage, is not permitted).
- Dogs must have access to water *inside* the cage, crate or pen.
- Dogs must be taken out of the cage, crate or pen to exercise and/or offered to toilet approximately every hour.
- Dogs on grooming tables must be always attended, and the handler must be very close by the dog. (Dogs must *not* be left unattended wearing a grooming leash on a grooming table).
- You should always leave your mobile telephone number, so that it is possible to reach you at any time.

### **PAY ATTENTION TO YOUR DOG**

All DKK shows and events are public and for the safety of all concerned, dogs should not be left unattended at any time. Most venues are very spacious. Please take advantage of this aspect and keep a safe distance to other dogs, handlers, and guests. We would like for all DKK events to be a great experience for everyone who is attending.

### **NO DOGS IN HOT CARS**

Be responsible! Dogs must not be left unattended in cars at any time. The exhibitors are responsible for safeguarding the welfare of the dogs at dog shows. It is forbidden to put the dog in a situation that can be dangerous for its health and welfare, such as leaving it in the car in hot weather and/or treating it in a cruel manner. If the show management or the show veterinarian finds that it will be irresponsible to leave dogs in the cars, it will be announced in the loudspeakers 1 or 2 times. If the dogs are not removed from the cars immediately, the matter will be passed on to the police. If your car is air conditioned, please put up a sign about this in the car window (and write your mobile number).

### **WEATHER FORECAST**

Please always check the weather forecast before you consider leaving the dog in a car or in a cage.
